

CUP HEAD PINS

SUNBELT Cup Head Pins simplify the permanent installation of duct liner or similar insulation to ducting and other HVAC sheet metals and housings. They can be applied quickly and easily using standard inductive CD stud welding equipment or resistance welding equipment.

SUNBELT Cup Head Pins are available in several different styles for portable inductive CD stud welders, which allow on-site insulating of ducting and other HVAC enclosures. There is also a style available for automatic resistance welders and pinspotters for the prefabrication of insulated ducting, panels or housings.

SUNBELT Cup Head Pins are normally available in the following:

MATERIALS: Pin – Mild Steel - Zinc Plated - Standard,
Copper Plating - on demand (Non-standard)
Washer - Mild Steel - Galvanized

SIZES: CS Washer – 1 3/16” diameter **LENGTHS:** in 1/8” increments from 3/8” to
CL Washer – 1 1/2” diameter 2 1/8”, and 1/2” increments from
Pin - 12 GA and 14 GA are standard 2 1/2” to 6” are standard.

SUNBELT Cup Head Pins can also be purchased with Paper Insulating Washers attached to avoid damaging arcing when welding through foil faced insulation.
