

LACING HOOK, LACING WASHER & LACING RING

SUNBELT Series 80 Lacing Hook and Two-Hole Washer System provides an even lower cost and the same easy-to-lace design. The tie wire application provides more blanket flexibility with equally secure performance. The **SUNBELT** Series 80 Lacing Hook is similar in function and appearance to the Series 74 Lacing System. The Series 80 Lacing Hook is stocked in mild steel, cadmium plated and stainless steel.

All **SUNBELT** Series 80 Lacing Hooks are stamped "NO AB" to indicate no asbestos at no additional cost. The **SUNBELT** L100 Lacing Washer can also be used with a Lacing ring and a second L100 lacing washer, which are fastened to the insulation blanket with a tie wire. One advantage with the lacing system is the positive detention of the lacing wire. The insulation blanket can be loosened for access or repositioning, without having to worry about the lacing wire falling away from the hooks. It is also advantageous in maintaining the position of the lacing wire when insulating complex shapes. All L100 Lacing Washers are stamped "NO AB" to indicate no asbestos, at no additional cost.
